ABOUT US

At PC Premium Coating, we specialize in high-performance epoxy flooring systems that combine durability, functionality, and beautiful design. We transform ordinary concrete into extraordinary floors built to last.

Founded on the values of quality craftsmanship, honest communication, and dependable service, we've built a reputation across Omaha and surrounding areas as a trusted flooring partner for homeowners and businesses alike.

From garages and basements to commercial shops and showrooms, we take pride in every project—no matter the size. Our team brings skill, experience, and attention to detail to deliver floors that not only look stunning but also perform under the toughest conditions.

When you choose PC Premium Coating, you're choosing a team that stands behind every floor we install.

QUALITY YOU CAN SEE. FLOORS YOU CAN TRUST.

Professional. Reliable. Built to Last.

We don't just install floors—we build lasting relationships. Our goal is to provide an experience that's smooth, stress-free, and results that you will love for years to come.

OUR MISSION

To deliver exceptional epoxy flooring solutions that enhance spaces, exceed expectations, and stand the test of time.

OUR VALUES

QUALITY FIRST

We use premium materials and proven systems to ensure long-lasting, beautiful results.

INTEGRITY

Honest communication, fair pricing, and doing what's right—every time.

CRAFTSMANSHIP

Skilled professionals who take pride in the work and the details.

CUSTOMER FOCUS

We listen, we care, and we work hard to earn your trust and satisfaction.

BUILT TO LAST

Our floors are engineered to withstand heavy use, chemicals, and daily wear for years to come.

WHY CHOOSE PC PREMIUM COATING?

EXPERIENCED TEAM

Years of hands-on experience and continuous training ensure expert results every time.

LOCAL & RELIABLE

Proudly serving Omaha and surrounding areas with a reputation built on trust.

ATTENTION TO DETAIL

We prep, install, and finish with precision because the details make the difference.

PREMIUM PRODUCTS

We use industry-leading materials that are tested, trusted, and built to perform.

GREAT EXPERIENCE

From your first call to the final walkthrough, we make the process easy and enjoyable.

SATISFACTION GUARANTEED

We're not happy until you are. Your satisfaction is our top priority.

WHY EPOXY?

BUILT BETTER. LOOKS BETTER. LASTS LONGER.

THE EPOXY ADVANTAGE

Epoxy flooring is a high-performance coating system that chemically bonds to concrete, creating a non-porous, seamless surface that outperforms traditional flooring in every way.

STRONG & DURABLE

Epoxy creates a tough, impact-resistant surface that withstands heavy foot traffic, vehicles, and equipment.

RESISTS STAINING & SPILLS

The seamless, non-porous surface resists oil, chemicals, salt, and other contaminants—making cleanup effortless.

ENHANCES ANY SPACE

Available in a variety of colors, flake blends, and finishes to create a clean, modern look that elevates any space.

LONG-TERM VALUE

Properly installed and maintained epoxy floors are built to last for many years, saving you time and money.

SEAMLESS FINISH

No grout lines or joints—just a smooth, seamless surface that looks great and is easy to clean.

IMPROVES SAFETY

Slip-resistant options and custom textures provide better traction and help reduce the risk of slips and falls.

UV & FADE RESISTANT

High-quality epoxy systems resist yellowing and fading, keeping your floors looking great for years to come.

LOW MAINTENANCE

A simple sweep and mop are all it takes to keep your floors clean, fresh, and looking like new.

COST EFFECTIVE

Long-lasting durability means fewer repairs and replacements—giving you more value over time.

GARAGES

Protect your concrete from oil stains, tire marks, and daily wear while creating a clean, polished look.

BASEMENTS

Brighten up your basement with a durable, moisture-resistant floor that stands up to spills and humidity.

COMMERCIAL SPACES

From retail shops to warehouses, epoxy floors handle heavy traffic and keep your space looking professional.

SHOPS & WORKSPACES

A tough, easy-to-clean surface that resists stains, chemicals, and abrasion—perfect for demanding environments.

HIGH-TRAFFIC AREAS

Designed to handle constant use without cracking, peeling, or wearing down over time.

OUTDOOR SPACES

Epoxy is great for patios, pool decks, and driveways—resisting the elements and looking great year-round.

OUR PROCESS

A QUALITY FLOOR STARTS WITH
A PROVEN PROCESS.

We follow a detailed, step-by-step system to ensure every epoxy floor we install is built to perform and made to last. No shortcuts. No guesswork. Just proven results.

1

GRIND & PREP CONCRETE

We mechanically grind the concrete to remove imperfections, open the pores, and create the ideal surface for maximum adhesion.

2

REPAIR CRACKS & IMPERFECTIONS

We repair cracks, holes, and other imperfections to ensure a smooth, level surface and a flawless finish.

3

APPLY BASE COAT

A high-quality base coat is applied to seal the concrete and create a strong foundation for your floor system.

4

BROADCAST FLAKES / METALLIC

Decorative vinyl flakes or metallic pigments are broadcast into the wet coating for texture, color, and enhanced durability.

5

SCRAPE & VACUUM

Excess flakes are scraped flush and the floor is vacuumed to remove all loose material, leaving a smooth, even surface.

6

APPLY TOPCOAT

A durable, protective topcoat is applied to seal in the flakes, enhance gloss, and provide long-lasting protection against wear, chemicals, and UV.

THE EPOXY ADVANTAGE

Epoxy flooring is a high-performance coating system that chemically bonds to concrete, creating a non-porous, seamless surface that outperforms traditional flooring in every way.

STRONG & DURABLE

Epoxy creates a tough, impact-resistant surface that withstands heavy foot traffic, vehicles, and equipment.

RESISTS STAINS & SPILLS

The seamless, non-porous surface resists oil, chemicals, salt, and other contaminants—making cleanup effortless.

ENHANCES ANY SPACE

Available in a variety of colors, flake blends, and finishes to create a clean, modern look that elevates any space.

LONG-TERM VALUE

FLAKE FLOORS

Decorative vinyl flakes broadcast into the floor for a textured, durable, and slip-resistant finish.

BEST USES

Garages, basements, shops, laundries, commercial spaces

✓ PROS

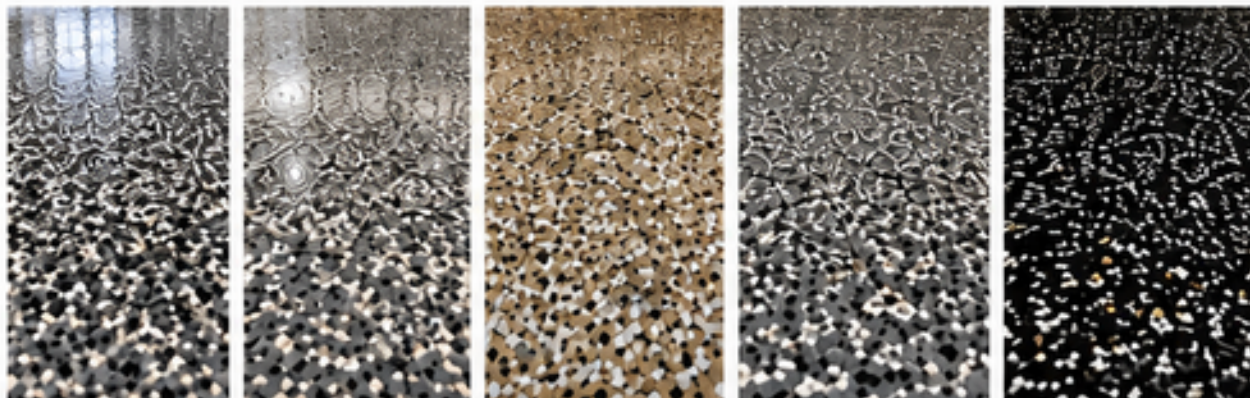

- Slip-resistant
- Hides dirt & imperfections
- Many color options
- Cost-effective

✗ CONS

- Slight texture
- Not as smooth as solid colors

TYPICAL LIFESPAN
10 – 15+ YEARS

METALLIC FLOORS

Stunning, one-of-a-kind finishes with a high-gloss, 3D look that brings your floor to life.

BEST USES

Showrooms, basements, retail spaces, offices, high-end garages

✓ PROS

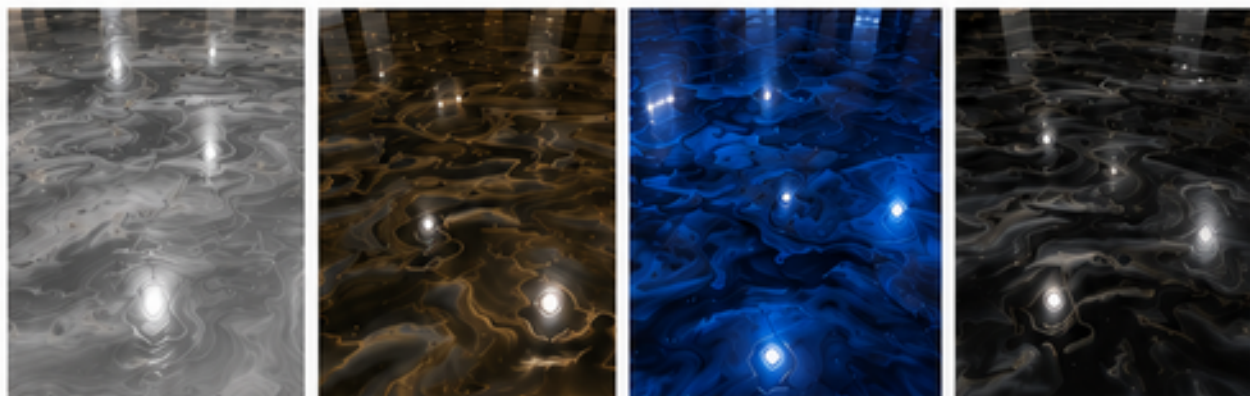

- Unique, high-end look
- Seamless & seamless
- Easy to clean
- Adds value to your space

✗ CONS

- Higher cost
- Professional installation required

TYPICAL LIFESPAN
10 – 15+ YEARS

SOLID COLOR FLOORS

Clean, sleek, and modern solid color systems for a minimal and professional look.

BEST USES

Garages, warehouses, commercial buildings, healthcare, labs

✓ PROS

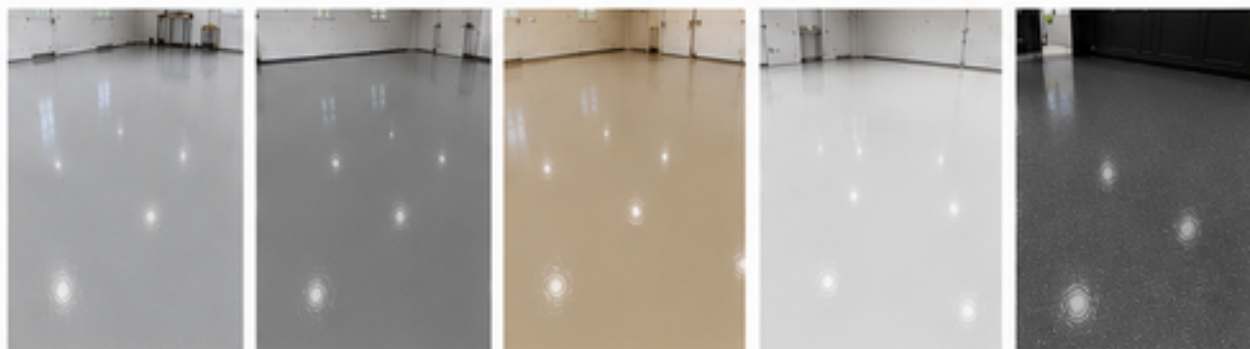

- Smooth, seamless finish
- Easy to clean
- Professional appearance
- Wide color selection

✗ CONS

- Shows imperfections
- If not prepped properly

TYPICAL LIFESPAN
10 – 15+ YEARS

PREMIUM MATERIALS

We use only top-quality coatings built to last.

EXPERT INSTALLATION

Proper prep and professional installation make all the difference.

BUILT TO LAST

Durable systems designed to perform for years.

ADD-ON OPTIONS

Customize your floor system for enhanced performance, protection, and finish.

STEM WALLS

Epoxy is applied up the stem wall for a seamless look and added protection.

BENEFITS:

- ✓ Protects from moisture and damage
- ✓ Easy to clean
- ✓ Seamless, finished appearance

BEST FOR:

- ✓ Garages
- ✓ Basements
- ✓ Commercial spaces

COVE BASE

A rounded cove base creates a smooth transition from the floor to the wall.

BENEFITS:

- ✓ Seamless and sanitary
- ✓ Easy to clean
- ✓ Prevents dirt and debris buildup

BEST FOR:

- ✓ Commercial spaces
- ✓ Food areas
- ✓ Workshops

ANTI-SLIP ADDITIVE

Add texture for enhanced traction and safety in wet or high-traffic areas.

BENEFITS:

- ✓ Improves traction and safety
- ✓ Reduces slip hazards
- ✓ Minimal change to appearance

BEST FOR:

- ✓ Garages
- ✓ Ramps & walkways
- ✓ Commercial areas

UV-RESISTANT TOPCOAT

Adds a clear, UV-resistant layer to prevent yellowing and fading.

BENEFITS:

- ✓ Resists yellowing and fading
- ✓ Maintains color and gloss
- ✓ Extends floor life

BEST FOR:

- ✓ Garages with windows
- ✓ Outdoor areas
- ✓ Sun-exposed spaces

CRACK REPAIR

Cracks and joints are repaired and filled for a smooth, durable surface.

BENEFITS:

- ✓ Prevents cracks from spreading
- ✓ Creates a smooth surface
- ✓ Improves floor durability

BEST FOR:

- ✓ Concrete with cracks
- ✓ Older concrete
- ✓ High-traffic areas

MOISTURE MITIGATION

Moisture control systems help protect against vapor transmission and bubbling.

BENEFITS:

- ✓ Reduces risk of bubbling/peeling
- ✓ Protects against moisture damage
- ✓ Extends system life

BEST FOR:

- ✓ Concrete on grade
- ✓ Basements
- ✓ High-moisture areas

FREQUENTLY ASKED QUESTIONS

Honest answers. No guesswork.

HOW LONG DOES IT LAST?

When professionally installed and properly maintained, epoxy floors can last 10–20+ years. Polyaspartic systems often last even longer due to their superior UV stability and durability.

HOW LONG UNTIL I CAN WALK OR DRIVE ON IT?

You can typically walk on your floor in 24 hours and drive on it in 48–72 hours, depending on the system and conditions. We'll provide exact timing based on your project.

IS IT SLIPPERY?

Our standard flake systems provide a slip-resistant texture. We also offer anti-slip additives for extra traction in high-traffic or wet areas.

DOES IT PEEL?

No—when the concrete is properly prepped, our epoxy systems bond permanently and do not peel or flake. Preparation is the most important step, and we never cut corners.

HOW DO I CLEAN IT?

Cleaning is simple! Regular sweeping and occasional mopping with a mild cleaner keeps your floor looking like new. Avoid harsh chemicals and abrasive tools.

HOW LONG DOES INSTALLATION TAKE?

Most residential garages and patios take 2–3 days from start to finish. Larger or more complex projects may take longer. We'll give you a clear timeline during your consultation.
